Minimal wall lamp with S14d Syntax socket and metal bent extension pipe
Light bulb: With bulb
Finish: Black

Product short description:

The minimal total black indoor wall lamp created with Syntax® socket is ready to be fixed to your walls. It is the perfect lighting solution for those who are searching for a functional light with a unusual and unqiue design. This lamp is created with Syntax®, the revolutionary S14d fitting socket created to enable the infinite potential of tube bulbs.

Ideal to give light to special details, such as mirrors and paintings, illuminate a special nook or change the atmosphere of your living rooms and hallways, this wall lamp is composed by a metal rose, a 14 cm metal bent extension and a thermoplastic Syntax® black socket.

The total black version with a bare Syntax lampholder is perfect for lovers of a minimalist style, while the versions with a white or metallic cover is ideal for a more daring style.

Syntax® is a Creative-Cables worldwide exclusive product designed by RLON.
