## LED Art Snail Light Bulb 8W S14d Dimmable 2200K - for S14 System

### Product short description:

The flexible filament of the Art Snail bulb, wrapped in a transparent protective shell, reproduces the silhouette of an open spiral. Thanks to their filiform and essential structure, and the lack of the classic glass bulb, the Art line bulbs are perfect to create lighting compositions where the light takes center stage!

Thanks to the lateral S14d fitting this bulb is perfect for creating original wall or ceiling lighting solutions using the Syntax® lamp holder.

To adjust its intensity, simply connect it to a dimmer.

Warning: To dim LED bulbs we strongly recommend using the latest generation of universal dimmer available on our website as either wall or inline options.

### Product description:

Light bulb type: LED  
Fitting: S14d  
Diameter: 165 mm  
Height: 250 mm  
Volt: 220/240  
Watt: 8W  
Energy class: G  
Colour temperature: 2200 K  
Lumen: 350 Lm  
Adjustment: dimmable

Our bulbs with straight filament can work with all DIMMERS (TRIA or IGBT), while for curved filament bulbs, IGBT

dimming is highly recommended.

For the choice of the dimmer: in addition to the maximum power of the user, the minimum power must also be considered, because when the regulated power is lower than the minimum rating, the user can "flicker" and / or be damaged
