Esse14 wall or ceiling lamp holder with S14d fitting - Waterproof IP44
Finish: Brown marble effect

Product short description:

With the patented esse14 lamp holder, using S14d linear LED bulbs will be more convenient than ever! Curved, small and stylish, you can shape your creations as you like without worrying about it taking up too much space. It doesn't require a ceiling rose and can be attached directly to the wall.

Ideal for illuminating details or creating your own installations, the lamp holder is designed, developed and manufactured in Italy in the purest Made in Italy spirit. Combining one of our 30 or 50 cm S14d linear LED bulbs, and thanks to the waterproof membrane, you'll also have IP44 waterproof rating and can mount it outside under a canopy without fear, or above the bathroom mirror safely.

The lamp holder is available in white or black and matches perfectly with our linear LED bulbs, which are available in three sizes (30 cm, 50 cm and 100 cm) and four beautiful finishes: transparent, golden, smoky grey and opal.

Product description:
