S14d LED tube gold light bulb - 500 mm length 8W 1900K dimmable - for S14 System

Product short description:

Tube bulbs are a very beautiful illuminant and through the use of contemporary long-lasting energy-efficient LEDs are experiencing a renaissance.

This 50 cm S14d golden tube bulb is perfect to brighten up your interiors and ideal to be matched with the S14d Syntax® black thermoplastic Socket. Just like filament bulbs, these can also be dimmed for brightness and will help you re-create that glam atmosphere you were searching for.

Please note that socket is NOT included.

Decorative lamps.

ATTENTION: to properly dim an LED bulb, a specific dimmer or the latest generation of universal dimmers is required. You will find a specific section on our website with a selection of both wall and in-line models.

Product description:

Light bulb type: LED
Shape: Tube
Fitting: S14d
Diameter: 30 mm
Length: 500 mm
Volt: 220/240 V

Watt: 8W
Colour temperature: 1900 K
Lumen: 430 Lm
Adjustment: dimmable

Our bulbs with straight filament can work with all DIMMERS (TRIA or IGBT), while for curved filament bulbs, IGBT dimming is highly recommended.

For the choice of the dimmer: in addition to the maximum power of the user, the minimum power must also be considered, because when the regulated power is lower than the minimum rating, the user can "flicker" and / or be damaged.
