

PRODUCT DESCRIPTION

The information contained in the description applies to the PIKO-ZM system (a set of PIKO-ZM and TEPIKO profiles)

- Minimum width and height
- Easy maintenance
- Wide range of accessories
- Small bending radius

FINISH :

Silver anodized

Black anodized

*Custom colors available upon request

TECHNICAL SPECIFICATION

Application

- furniture and decorative lighting.

Mounting

- to the surface, suspended or recessed, using a dedicated mounting track, dedicated accessories, or mounting adhesive,
- can be easily connected into runs,
- the cover is cut to the length of the profile.

Additional information

- fast and reliable installation of sealed LED strips "5-KLIK" (LED strip in a special silicone sleeve ensuring increased tightness)
- Ideal for use in bathrooms and other rooms with high humidity
- recommendation:

Profile length	1 m	2 m	3 m
Number of TEKNIK latches	4	9	14

- the TEPIKO profile is sold with the "TEPIKO protective insert"
- space for LED strip: 7.2 mm

Profile bending

- the profile can be twisted along the axis

Minimum internal radius	Minimum external radius
220 mm	120 mm

- minimum radius- bending radius which when exceeded causes destruction (deformation, bending or lack of compatibility with other accessories, e.g. covers, end caps, etc.) of the profile
- internal radius- refers to the profile bent so that the cover is facing the inside of the arch
- external radius- refers to the profile bent so that the cover is facing the outside of the arch
- irregular curves are possible after consultation and individual quotation
- when bending anodized profiles, one should be aware of cracking of the anode coating (which may be more or less visible depending on the radius)

AVAILABLE LENGTHS

Ref. nr.	surface finish	available lengths
C1168ANODA_1	Silver anodized	1000 mm
C1168ANODA_2	Silver anodized	2000 mm
C1168ANODA_3	Silver anodized	3000 mm
C1168K7_1	Black anodized	1000 mm
C1168K7_2	Black anodized	2000 mm
C1168K7_3	Black anodized	3000 mm
